SEEKS A NEW RECORD, CRASHES TO DEATH

Blast Rips Victoria Coal Mine, Seven Men Killed

ACCIDENT NEAR TRURO, N. S., IS 1ST IN 100 YEARS

3 BODIES RECOVERED, SOME OF MINERS ESCAPING ASSIST IN RESCUE

EXPLOSION SO DEEP UNDERGROUND, IT WAS HARDLY FELT IN CITY

Truro, N. S., Sept. 18.—(U.P.)—An explosion today ripped the interior of the Victoria coal mine at River Herbert, exacting a death toll for the first time in the 100 years since the mine has been worked.

At least seven persons were killed. Three bodies were recovered. Some of the 13 miners who escaped from the 1200 foot shaft when the explosion occurred, came to the surface, rested a few minutes, and then re-entered on a rescue mission.

The explosion was so deep in the earth that it hardly was felt in the city. Word of the disaster spread rapidly, and soon the mine entrance was surrounded by families of the workers.

Henry White, an elderly man who once was a miner, joined the rescue crew and went into the mine. He returned a few minutes later carrying the body of his son, William White.

GAS EXPLOSION IN POTTSVILLE, PA., MINE

Pottsville, Pa., Sept. 18.—A gas explosion in the Sherman coal mine resulted in four deaths and injury to two other miners late yesterday. Workers are clearing away the debris today in the main gangway of the Skidmore vein, 1500 feet underground, where the blast occurred.

BUSINESS AREA OF MELBY WIPED OUT BY FIRE

RUINS TODAY STAND IN A ROW ALONG MAIN STREET IN VILLAGE

FIREMEN FROM EVANSVILLE PREVENT ANY FURTHER SPREAD

Fergus Falls, Minn., Sept. 18.—(U.P.)—The entire business section of Melby, a tiny village near here, virtually was wiped out by fire today when a strong southeast wind threatened to burn the entire town.

The buildings along Main street that were burned were the Ernest Balmquist hardware store, Jonson Brothers general store, a garage owned by Carl Carlson and John Rugroden and the Johnson Brothers feed store.

The ruins stood in a row along Main street. Firemen from the nearby town of Evansville aided in fighting the blaze and preventing it from destroying the residential section.

Estimates of the loss ranged from \$25,000 to \$75,000.

ACOSTA PROMISES TO 'GO STRAIGHT'

Waterbury, Conn., Sept. 18.—(U.P.)—A charge of contempt of court operative against Bert Acosta in Waterbury for two years was dismissed today when the trans-Atlantic aviator promised to "go straight."

Common Pleas Court Judge Harry Bearslee, who issued a contempt warrant for the flier after he allegedly jumped bond in 1928, gave Acosta a severe lecture and then nolledd the charge.

The aviator, who piloted Rear Admiral Richard E. Byrd's trans-Atlantic airplane from America to France, was arrested after he had made a forced landing at Wilton late yesterday. State police recalled that Acosta had been sought ever since he disappeared without having served a five day jail sentence imposed in Naugatug, his home town, for reckless flying.

SLIGHT INCREASES IN SIX BUDGETS

St. Paul, Sept. 18.—(U.P.)—Slight increases in six budget requests and decreases in two were made in budget statements filed today with A. J. Peterson, state budget commissioner. The state supreme court and the law library reduced their requests slightly from 1929. Increases were asked by the state treasurer, the Historical society, the retired judges fund, the department of drainage and waters, the insurance division and the securities division.

INFANTILE PARALYSIS SPREADING RAPIDLY THROUGHOUT STATE

St. Paul, Sept. 18.—(U.P.)—The state board of health today declared that infantile paralysis was spreading rapidly throughout the state and that an emergency existed.

They presented a request to the state board of health today for an appropriation of \$6,487.50 to aid in combatting the epidemic.

Infantile paralysis has already been reported from 23 counties, mostly in the southwestern part of the state but extending to Minneapolis, St. Paul and Duluth, the health board reported.

YOUNG BROTHER OF AL CAPONE IS ARRESTED

MATHEW, 21, FRESH FROM MIAMI, CAPTURED BY CHICAGO POLICE

DRIVE AGAINST RACKETEERS IS STARTED BY JUDGE JOHN P. McGOORTY

Chicago, Sept. 18.—(U.P.)—Police squads, hunting the 26 gangster public enemies in Chicago's latest crime drive, today arrested Matheo Capone, younger brother of "Scarface" Al Capone, the gang leader.

Matheo, 21, and fresh from Miami, Fla., the gangster's winter home, was captured as the squads lay in wait for "Scarface" Al at his luxurious south-side apartment.

The younger Capone was held at the Grand Crossing station pending further investigation.

Matheo was the first of the Capones to be taken in the drive. Although his name does not appear on the "public enemy list," the name of Al heads the list followed by that of Ralph, another brother who has been sentenced to the federal penitentiary for income tax fraud.

Matheo drove up to the Capone home at 7744 Prairie Avenue, in a large automobile bearing Pennsylvania license plates.

The squad members, who had been posted around the apartment hoping some of the Capones would appear, rushed on Matheo with pistols ready, believing he was Al or Ralph.

He submitted to arrest quietly, although he protested "he hadn't done anything."

"I'm just a school boy," he said, "coming back from a vacation."

He said he had been attending Milinova school, 13 miles from Philadelphia, and that he had driven to Chicago from the Miami home of brother Al.

After arresting young Capone, the squads searched the Capone apartment house but found no trace of Al or Ralph. The first floor of the flat, where Al lives part of the time with his wife and two children, was vacant. Capone's mother was the only occupant of the two flats, which are richly furnished with oriental rugs, tapestries and period furniture.

She said Al had been there only once since his Philadelphia jail term and she "thought" he was in Florida. Al's wife is in Colorado Springs, she said.

Previously the squads had visited the homes of Jack and Harry Guzik, lieutenants of Al, and found that neither had been at home recently.

Young Capone's arrest was in line with Judge John P. McGoorty's war on gangsters and racketeers in which Judge John H. Lyle swore out vagrancy warrants against the 26 "public enemies."

The arrest followed a night of raids on labor union headquarters in which police seized many records to determine whether gangsters had "muscle" in on labor affairs.

TWO ARE BURNED TO DEATH IN MILACA FIRE

Milaca, Minn., Sept. 18.—(U.P.)—John Hagman, 65, and his son, Vincent, 18, were burned to death today in a fire which destroyed their farm home four miles from here. Mrs. Hagman was critically burned. She rescued her daughter, Olga, 16, and attempted to save her husband and son. The fire was started by an overheated stove.

'WHITE SMOKE' IS FATAL TO SEVEN

New York, Sept. 18.—(U.P.)—"White smoke," a dangerous mixture of painter's alcohol and milk, is the latest drink to be discovered in waterfront and bowery dives. Seven deaths were traced to it today by the city toxicologist. It sells for fifty cents a quart.

Steam Schooner South Coast Reported Lost with 15 to 20 Men Off Cape Blanco, Oregon

COAST GUARD CUTTER SPEEDS TO FOUNDERED CRAFT

EMPTY DECKHOUSE, EMPTY LIFE BOAT REPORTED BY TWO STEAMERS

NUMEROUS LOGS, SCHOONER'S CARGO, SEEN FLOATING ABOUT

San Francisco, Sept. 18.—(U.P.)—The coast guard cutter Cohokia today proceeded at full speed to a point off Cape Blanco, Ore., where the steam schooner South Coast was believed to have foundered with between 15 and 20 men aboard.

The first news that the vessel was missing was received when two steamers reported to the hydrographic office of the 12th naval station that they had seen a deckhouse, an empty life boat and numerous logs—the South Coast's cargo—500 miles north of here. The steam schooner left Crescent City, Calif., Tuesday morning bound for Coos Bay, Ore., where it was due at 4 A. M. Wednesday. The vessel has not been sighted either at Coos Bay or other coast points.

A heavy fog enveloped the ship's course since its departure, although weather reports showed the sea had been calm off Cape Blanco for the past three days.

Officials of the Hobb-Wall Company, owners of the South Coast, were unable to account for the reported accident, as the ship carried no explosives and had been over the same route under the same officers for a number of weeks.

The missing vessel carried no radio, which added to the alarm felt that a tragedy had occurred. The Cohokia was not expected to arrive off Cape Blanco before noon today.

END OF RAINBOW TRAIL LED TO POT OF GOLD

FOLLOWED 20 YEARS BY CALIFORNIAN WOMAN PROSPECTOR

IN QUEST OF LOST HORSE MINE AND ITS VAST STORE OF GOLD

Newhall, Calif., Sept. 18.—(U.P.)—The bones of four murdered men, found on a slope of the Tehachapi mountains, were believed today to mark the end of a rainbow trail followed 20 years by a woman prospector in quest of Lost Horse mine and its vast store of gold.

Anna L. Rose, the prospector who led a posse of sheriff's deputies on a successful hunt for the bones, declared they were the remains of three men and a boy who, according to legend, were slain near the mine in 1878 by "Irish" Charlie Reilly, virile two-gun man of the west.

If the legend is based on fact—and pioneers of the district claim there is strong evidence to support it—Miss Rose may be able to uncover the obliterated shaft of the mine from which "Doc" Benjamin Franklin Bragg took \$800,000 in gold quartz half a century ago.

Bragg, an associate of "Lucky" Baldwin of race horse fame, wasted his easily won fortune, but five years before he died a mendicant in 1915, he revealed to Miss Rose the lost mine's location on a crude map. Bragg himself was "afraid" to return for more gold, although he refused to name the cause of his foreboding.

Traditions of the neighborhood say Reilly drank heavily in the village store one night and boasted of slaying the four men he found working the mine. He buried the victims near the mine, he said, but boasted again none could find the spot.

Three days later he was ambushed by dark-skinned night riders and the next day neighbors came across his bullet riddled body.

OVER 385 HOURS IN A STATE OF COMA

St. Paul, Sept. 18.—(U.P.)—Mrs. Max Beghtol, Lincoln, Neb., injured in an auto crash Sept. 2, was still unconscious today after 385 hours in a state of coma. She suffered a fractured skull in the accident.

The work of Leonard Crunelle, Chicago sculptor, his new statue of Abraham Lincoln, revealing the Great Emancipator at 23, when he was a soldier in the Black Hawk war will be unveiled September 24 at Dixon, Ill.

CHARGED WITH MURDER OF SPOUSE

INSURANCE AGENT GIVES CLUES UNEARTHING GLASGOW, MONT., CRIME

Glasgow, Mont., Sept. 18.—(U.P.)—Mrs. Anna E. Arnot was charged today with the murder of her husband because she changed her mind.

Nearly a month ago the husband's body was found in the basement of his home, lying on a burning pile of rubbish. A verdict of accidental death was returned by a coroner's jury.

Later E. O. Evered, an insurance agent, told authorities he was in a drugstore the night before Arnot's body was discovered and had spoken to Mrs. Arnot as she was purchasing poison.

"She seemed startled when she saw me and told the clerk to 'never mind' and left the store hurriedly," Evered said.

Investigation disclosed she returned to the drugstore the next day and consumed the purchase.

Arnot's body had been buried at Park River, N. D. It was exhumed and traces of poison, which possibly could have caused death, were found, officials said.

Mrs. Arnot admitted, officers said, that her husband had died from poison, but said he had taken it by mistake.

GUILLOTINE HACKS OFF HEAD OF TRIPLE ASSASSIN

Beauvais, France, Sept. 18.—(U.P.)—With the words on his lips "Good bye, my friends, death to the cowards," the triple assassin, Andre Roos, was thrown under the guillotine in the public street while gendarmes kept in order groups of angry demonstrators against capital punishment.

The execution of Roos, which is about the tenth this year, has renewed the agitation which bursts out occasionally in France against the use of the knife under whose blade the heads of kings and commoners have fallen in France.

The agitation is not against the guillotine itself, but against capital punishment entirely, since it is claimed that this is no deterrent to criminals. There are only about half a dozen guillotines in existence now in France.

41 PER CENT OF NATION'S WEALTH IN WOMEN'S HANDS

J. F. REED, HEAD OF STATE TAXPAYERS' ASSOCIATION, ADDRESSES WOMEN'S CLUBS

THEIR DUTY TO WATCH NATIONAL, STATE AND LOCAL GOVERNMENT EXPENDITURES

Albert Lea, Minn., Sept. 18.—(U.P.)—Forty-one per cent of the wealth of the nation is in the hands of women, J. F. Reed, president of the Minnesota Taxpayers Association said today at the convention of the State Federation of Women's Clubs.

With an ever-increasing percentage of the country's wealth in the hands of women, their duty as taxpayers to watch the growing expenditures of national, state and local government is constantly mounting, Reed said.

"The general popularity of tax reduction is strong, but not strong enough to offset the sum of the public demand for particular improvements which require more and more money. We talk prudence and economy in public affairs, but every officer finds himself the shining target for every man and group that thinks something can be had from the public purse to further their own selfish interest," he said.

"In the state of Minnesota and its subdivisions more money will be collected for taxes this year than in any former year of the state's history. More than 133 1/2 million dollars in general property tax will be our contribution for state and local purposes. This, of course, does not include gasoline, automobile, gross earnings from iron ore occupation, money and credit inheritance, mortgage registration and numerous other state taxes, fees and commissions," he said.

"In the country as a whole every eleven families maintain one family on the government payroll and an expenditure of 40 million dollars a day to maintain our varied governmental functions. These are greater expenditures than were ever made before by this or any other country throughout all the years of history.

Illustrating governmental spending, Reed cited the lease of the St. Paul commercial post office.

"Today there is serious consideration given to the demand that first class postage be increased from 2 to 2 1/2 cents to meet governmental deficiencies, caused by such blundering and almost criminal business inefficiency," Reed said.

"We criticize government and local expenditures of public funds and crying out against extravagance in their spending is easy. To offer concrete and helpful suggestions for its correction is more difficult. When I tell you the entire truth that the compelling cause of this wild orgy of public spending is the taxpayer himself and the guilt lies at our own doors, it is not a very pleasant reflection.

"Many good men and women, seeing this system, shun public office although they may have a love for and pride in public service. Many good men and women would take pleasure in serving the public if these conditions were different, if the public they serve would protect them and show the proper appreciation of the sacrifice they made and service rendered," he said.

The Minnesota Taxpayers Association was formed in 1926 by a group of taxpayers' associations striving to obtain more efficiency in government. Its objectives are to reduce taxes, prevent extravagance in public expenditures, reduce public debt and stop the misuse of public funds.

RUTH ALEXANDER CRASHES INTO HILL NEAR SAN DIEGO

WAS ONE OF THE BEST WOMEN FLIERS IN THE UNITED STATES

ATTEMPTED ONE-STOP FLIGHT TO NEW YORK COMES TO GRIEF

San Diego, Cal., Sept. 18.—(U.P.)—Ruth Alexander, 20-year-old San Diego aviator, was killed at Elmore Point near here today soon after taking off on a flight to New York.

The young flier crashed into the side of a hill in the residential section just inside the city limits to the west.

Miss Alexander took off in a low wing monoplane and heading into heavy fog she was believed to have lost her bearings.

Nearly residents heard the crash of the tiny plane and telephoned officials. Police were called and the girl's body was found in the wreckage.

Bits of the plane were strewn along the hill for a good distance, indicating she was traveling at a high speed when the plane struck.

Department of commerce officials and Coroner Schuyler C. Kelly launched separate investigations into the tragedy. The body was held at an undertaking parlor here pending an inquest.

Miss Alexander set a world altitude record last June and was considered one of the best women fliers in the nation.

San Diego, Cal., Sept. 18.—Ruth Alexander, 20-year-old San Diego aviator, left here at 3:28 A. M. PST. (5:28 A. M. CST.) today in an attempted one-stop flight to New York.

The girl flier, holder of the world altitude record for women in light planes, headed her tiny low wing monoplane into a high fog bank, but hoped to leave the fog behind in her dash to Wichita, Kas., the only intended stop on her flight.

Miss Alexander sought a transcontinental one-stop record for women. Flying officials said her time will establish the record as there is no present holder.

Her Barling monoplane, with a 115-horsepower motor, weighed only 780 pounds. Her own weight combined with that of the 117 gallons of fuel exceeded the weight of the plane.

The flier planned to stop overnight at Wichita, taking off for New York Friday morning.

EXPOSE ACTIVITY OF AUTOMOBILE THEFT RING

NEW YORK GANG DEALT ONLY IN HIGH PRICED CARS

FREQUENTLY STOLE MACHINES 'TO ORDER' FOR CUSTOMERS

New York, Sept. 18.—(U.P.)—Activity of an automobile theft ring that dealt only in high priced automobiles and frequently stole machines "to order" has been exposed here.

William Stanley Hayes, 44, arrested as the "salesman" of the gang, is said to have admitted the sale of more than a score of costly motor cars to residents in three states. Hayes claims to be a Yale graduate.

According to police, Hayes was sent to "prospects" to demonstrate the stolen automobiles, and if a model not in the gang's possession was desired, members would steal the machine, change the license and motor numbers, and sell it at a discount from the list price.

The deal was explained, police said, by asserting the cars originally had been intended for export but due to a poor market could not be shipped.

Hayes said he was taken in by this explanation and did not know the cars were stolen until recently. He claimed not to know the members of the ring, he said, were known to him only by names of "Martin" and "Mac."

GRIEFSTRICKEN OVER HUSBAND'S DEATH, WOMAN KILLS SELF

Minneapolis, Minn., Sept. 18.—(U.P.)—Grief-stricken over her husband's death two weeks ago, Mrs. Pauline Aronson, St. Paul, committed suicide in the Milwaukee station today.

Mrs. Aronson, mother of two small children, shot herself in the abdomen while waiting in the restroom of the station. She died in the hospital an hour later.

After the death of her husband, she had planned to return to her former home at Vebelin, N. D., where her father, George Bates lived, she told police.

R. W. WILBUR

Las Vegas, Nev., Sept. 18.—(U.P.)—The first unit of Boulder Dam was under construction today after an official start at a nation-wide ceremony in charge of Secretary of the Interior Ray Lyman Wilbur.

On a windswept section of the Nevada desert seven miles south of here, Secretary Wilbur hammered a silver spike into the first tie of a 22-mile branch line railway leading to the site of the \$165,000,000 water and power project. Notables from seven states in the great Colorado basin looked on and applauded.

Secretary Wilbur said the dam marks "the beginning of a new era in the handling by states working together on those common problems upon the solution of which the continued vitality of our nation depends."

Wilbur revealed the project will be named Hoover dam instead of Boulder Dam, in honor of the nation's president.

TWO CONVICTS STAB
EACH OTHER TO DEATH
IN PRISON BUNKHOUSE

Huntsville, Texas, Sept. 18.—(U.P.)—Two convicts on Ferguson state prison farm stabbed each other to death in the bunkhouse last night, it became known here today. The killings followed an argument between them.

They were Volmer Tinney, serving 25 years from Wilson county for robbery, and Elmer Butler, serving four years from Johnson county for assault to murder. Butler was building tender on the farm.

Charged With Swindling
70-Year-Old Couple

St. Paul, Sept. 18.—(U.P.)—A warrant for the arrest of Frank A. Marcello, contractor, on a charge of swindling a 70-year-old couple out of their home was sworn out today.

Joseph McNaughton and his wife, both 70, sworn out the complaint. They charged that they signed a deed to their home when it was presented by Marcello on a pretext that it was an affidavit of identification.

PHOTOGRAPHER'S
PSYCHOLOGY PROVES
TO BE 'ALL WRONG'

St. Louis, Sept. 18.—(U.P.)—Elias Bennett, a photographer, decided today his psychology "was all wrong." He fired a pistol in front of a negro evangelist meeting here in an effort to draw a crowd to the gospel hall. Instead those inside ran out. Bennett was charged with carrying concealed weapons.

GUILLOTINE HACKS
OFF HEAD OF
TRIPLE ASSASSIN

Beauvais, France, Sept. 18.—(U.P.)—With the words on his lips "Good bye, my friends, death to the cowards," the triple assassin, Andre Roos, was thrown under the guillotine in the public street while gendarmes kept in order groups of angry demonstrators against capital punishment.

The execution of Roos, which is about the tenth this year, has renewed the agitation which bursts out occasionally in France against the use of the knife under whose blade the heads of kings and commoners have fallen in France.

The agitation is not against the guillotine itself, but against capital punishment entirely, since it is claimed that this is no deterrent to criminals. There are only about half a dozen guillotines in existence now in France.

41 PER CENT OF
NATION'S WEALTH
IN WOMEN'S HANDSJ. F. REED, HEAD OF STATE TAX-
PAYERS' ASSOCIATION, AD-
DRESSES WOMEN'S CLUBSTHEIR DUTY TO WATCH NATION-
AL, STATE AND LOCAL GOV-
ERNMENT EXPENDITURES

Albert Lea, Minn., Sept. 18.—(U.P.)—Forty-one per cent of the wealth of the nation is in the hands of women, J. F. Reed, president of the Minnesota Taxpayers Association said today at the convention of the State Federation of Women's Clubs.

With an ever-increasing percentage of the country's wealth in the hands of women, their duty as taxpayers to watch the growing expenditures of national, state and local government is constantly mounting, Reed said.

"The general popularity of tax reduction is strong, but not strong enough to offset the sum of the public demand for particular improvements which require more and more money. We talk prudence and economy in public affairs, but every officer finds himself the shining target for every man and group that thinks something can be had from the public purse to further their own selfish interest," he said.

"In the state of Minnesota and its subdivisions more money will be collected for taxes this year than in any former year of the state's history. More than 133½ million dollars in general property tax will be our contribution for state and local purposes. This, of course, does not include gasoline, automobile, gross earnings from iron ore occupation, money and credit inheritance, mortgage registration and numerous other state taxes, fees and commissions," he said.

"In the country as a whole every eleven families maintain one family on the government payroll and an expenditure of 40 million dollars a day to maintain our varied governmental functions. These are greater expenditures than were ever made before by this or any other country throughout all the years of history.

Illustrating governmental spending, Reed cited the lease of the St. Paul commercial post office.

"Today there is serious consideration given to the demand that first class postage be increased from 2 to 2½ cents to meet governmental deficiencies, caused by such blundering and almost criminal business inefficiency," Reed said.

"We criticize government and local expenditures of public funds and crying out against extravagance in their spending is easy. To offer concrete and helpful suggestions for its correction is more difficult. When I tell you the entire truth that the compelling cause of this wild orgy of public spending is the taxpayer himself and the guilt lies at our own doors, it is not a very pleasant reflection.

"Many good men and women, seeing this system, shun public office although they may have a love for and pride in public service. Many good men and women would take pleasure in serving the public if these conditions were different, if the public they serve would protect them and show the proper appreciation of the sacrifice they made and service rendered," he said.

The Minnesota Taxpayers Association was formed in 1926 by a group of taxpayers' associations striving to obtain more efficiency in government. Its objectives are to reduce taxes, prevent extravagance in public expenditures, reduce public debt and stop the misuse of public funds.

RUTH ALEXANDER
CRASHES INTO HILL
NEAR SAN DIEGOWAS ONE OF THE BEST WOMEN
FLIERS IN THE UNITED
STATESATTEMPTED ONE-STOP FLIGHT
TO NEW YORK COMES
TO GRIEF

San Diego, Cal., Sept. 18.—(U.P.)—Ruth Alexander, 20-year-old San Diego aviator, was killed at Eloma Point near here today soon after taking off on a flight to New York.

The young flier crashed into the side of a hill in the residential section just inside the city limits to the west.

Miss Alexander took off in a low wing monoplane and heading into heavy fog she was believed to have lost her bearings.

Nearby residents heard the crash of the tiny plane and telephoned officials. Police were called and the girl's body was found in the wreckage.

Bits of the plane were strewn along the hill for a good distance, indicating she was traveling at a high speed when the plane struck.

Department of commerce officials and Coroner Schuyler C. Kelly launched separate investigations into the tragedy. The body was held at an undertaking parlor here pending an inquest.

Miss Alexander set a world altitude record last June and was considered one of the best women fliers in the nation.

San Diego, Cal., Sept. 18.—Ruth Alexander, 20-year-old San Diego aviator, left here at 3:28 A. M. PST. (5:28 A. M. CST.) today in an attempted one-stop flight to New York.

The girl flier, holder of the world altitude record for women in light planes, headed her tiny low wing monoplane into a high fog bank, but hoped to leave the fog behind in her dash to Wichita, Kas., the only intended stop on her flight.

Miss Alexander sought a transcontinental one-stop record for women. Flying officials said her time will establish the record as there is no present holder.

Her Barling monoplane, with a 115-horsepower motor, weighed only 700 pounds. Her own weight combined with that of the 117 gallons of fuel exceeded the weight of the plane.

The flier planned to stop overnight at Wichita, taking off for New York Friday morning.

EXPOSE ACTIVITY
OF AUTOMOBILE
THEFT RINGNEW YORK GANG DEALT ONLY
IN HIGH PRICED
CARSFREQUENTLY STOLE MACHINES
'TO ORDER' FOR
CUSTOMERS

New York, Sept. 18.—(U.P.)—Activity of an automobile theft ring that dealt only in high priced automobiles and frequently stole machines "to order" has been exposed here.

William Stanley Hayes, 44, arrested as the "salesman" of the gang, is said to have admitted the sale of more than a score of costly motor cars to residents in three states. Hayes claims to be a Yale graduate.

According to police, Hayes was sent to "prospects" to demonstrate the stolen automobiles, and if a model not in the gang's possession was desired, members would steal the machine, change the license and motor numbers, and sell it at a discount from the list price.

The deal was explained, police said, by asserting the cars originally had been intended for export but due to a poor market could not be shipped.

Hayes said he was taken in by this explanation and did not know the cars were stolen until recently. He claimed not to know the members of the ring, he said, were known to him only by names of "Martin" and "Mac."

GRIEFSTRICKEN OVER
HUSBAND'S DEATH,
WOMAN KILLS SELF

Minneapolis, Minn., Sept. 18.—(U.P.)—Grief-stricken over her husband's death two weeks ago, Mrs. Pauline Aronson, St. Paul, committed suicide in the Milwaukee station today.

Mrs. Aronson, mother of two small children, shot herself in the abdomen while waiting in the restroom of the station. She died in the hospital an hour later.

After the death of her husband, she had planned to return to her former home at Veblen, N. D., where her foster-father, George Bates lived, she told police.

LINCOLN TEACHERS GIVEN WELCOME

P. T. A. Hosts at School, Large and Interested Audience is Present

A large and interested audience attended the teachers reception and get-together meeting of the Lincoln P. T. A. at the Lincoln school last evening. The rooms were very prettily decorated with a number of baskets of fall flowers. The buffet table where the lunch was served was decorated with yellow flowers and yellow candles.

The meeting was called to order by Mayor Frank E. Little who has been president of the association for the past two years. After the community singing, Mr. Little welcomed the teachers and promised to them the cooperation of the parents at all times. He then turned the chair to Mrs. Louis Hohman who has been chosen to succeed him. Robert W. Crust, president of the Board of Education gave a short talk on cooperation of parents and teachers and the school board, which was enjoyed by all.

Miss Lorraine Morrison favored the gathering with two piano selections which were beautifully rendered. Miss Franklin, principal of the Lincoln school gave a talk on the cooperation of the parents with the teachers and what the two-bodies working together can accomplish. Mr. and Mrs. Mitzi Witham delighted the audience with several well chosen numbers, violin and piano, and responded to encores very graciously.

A short business session followed at which the secretary and second vice president were chosen. Chairmen of the year were also appointed. The association then planned their annual carnival

AMATEUR BANDIT

HOLDS UP BANK

Wesley, Ia., Sept. 18.—(U.P.)—An amateur bank bandit who wore grease paint on his face and carried an old fashioned pistol held up the Exchange bank today and made good his escape.

The robber had fortified himself for his task by drinking heavily bank officials said, and appeared nervous as he demanded that the banks money be handed over.

A quick check of the funds after the robbery indicated less than \$1,000 had been obtained.

Lincoln, Neb., Sept. 18.—(U.P.)—Witnesses of the Lincoln National bank robbery scanned numerous photographs of notorious criminals at the police rogue's gallery today in an attempt to recognize the bandits who covered their escape without leaving a clue.

Officers believed the bandits, who obtained more than \$50,000 in cash and an equal amount in securities much of the latter non-negotiable, were "somewhere in Kansas, Iowa, or Nebraska."

The bank offered \$20,000 for return of the securities.

MITES FOR PILLAGER MATRON HELD HERE

Funeral services were conducted at Whitney's mortuary this afternoon for Mrs. John Peterson of Pillager, Rev. August Samuelson officiating.

The body was shipped to Spring Grove, Minn., where burial rites will be held Saturday.

Mrs. Peterson, the wife of the operator of the Pillager Dam, was 41 years old, being born in Houston county on May 10, 1889.

She leaves besides her husband, two sons, Jay and George.

GEISKING DECLARED NOT THE SLAYER OF AL LINGLE

Louisville, Ky., Sept. 18.—(U.P.)—One of the many trials which investigators have travelled in attempting to solve the slaying of Alfred Lingle, Chicago Tribune reporter, appeared to have ended here today with declaration that Ted Geisking, Indiana gangster, was not the slayer.

Two witnesses to Lingle's slaying and Pat Lingo, chief investigator of the state attorney's office in Chicago, failed to identify Geisking as the left handed man who on June 9 shot Lingle to death in a pedestrian subway. Geisking probably will be taken to Indiana where he is wanted on numerous charges, officials said.

It was pointed out that Geisking has dark hair while the newspaperman's assassin was a blond. Geisking was given a shampoo to determine whether he had dyed his hair. It proved he had not.

GASOLINE SOLD FROM 16 TO 18 CENTS GALLON

Minneapolis, Minn., Sept. 18.—(U.P.)—Gasoline was being sold at prices ranging from 16 to 18 cents a gallon, with state tax paid, as independents and large distributors continued their price cutting war. Most stations were selling low test gasoline at 18 cents including a 3-cent state tax, but several independents cut the price to 16 cents, including tax today.

MAN VISITING SICK WIFE LOSES AUTO

H. C. Weston, Pillsbury, Leaves Car in Front of Hospital, Gone This Morning

H. C. Weston of Pillsbury, Minn., came to Brainerd last evening to visit his sick wife at the St. Joseph's hospital. He left his car in front of the hospital and after seeing his wife decided to walk downtown and get a room for the night.

All this done Mr. Weston returned to the hospital this morning to find his car stolen. The vehicle was a Chevrolet touring, 1926 model.

125 Persons are Named in Indictments by Federal Jury

St. Paul, Sept. 18.—(U.P.)—More than 125 persons were named in 85 indictments voted by the federal grand jury today. All of those named were charged with prohibition offenses.

Among those indicted were John Jones and John Ross, St. Cloud, who are charged with manufacture of liquor; Phillip Opatz, Holdingford, charged with having an unregistered still; Alfred Winter, Spring Hill, unregistered still; Mary Kresback, Rockville, charged with sale of liquor; John H. Rassal, Stearns county, charged with transportation.

John Wida and Casimir Taylor, of Buckman, Morrison county, charged with possession; Edward Renneberg and Anton Veith, Jr., Morrison county, charged with manufacture.

Joe Boloenac and Phil Dujmovich, Crow Wing county, charged with operating an unregistered still.

All of the defendants were either in jail or out on bond.

The Height of Sportsmanship

AFTER the Enterprise-Shamrock races are over and the cup still reposes in America, we would suggest a test that would carry the highest elements of sportsmanship and that would arouse unprecedented interest.

We suggest that the Enterprise and Shamrock boats change captains and crews, that Vanderbilt and his crew take over the Shamrock and the British captain and crew board and operate the Enterprise. Then let them race one heat.

PLATTE LAKE

In order not to delay the church building program at Hillman where construction is ready for cornerstone laying by September 21, the congregation here last night postponed the scheduled Sunday school picnic one week and have the same in a week from Sunday, September

25, with morning services at the E. F. Gross place and the program with the children in the afternoon.
The folks from here are cordially invited to be present at the special services of cornerstone laying for the church at Hillman. The service to commence at 2:30 o'clock Sunday, September 21.
We are sorry to hear that Mrs. A. Paulson has been on the sick list for a number of weeks and is in a hospital at Minneapolis for treatment. We hope that her health will be restored soon.
The social given by the Luther League was a decided success. We herewith wish to thank all those who were present aiding in making it a success. We feel especially grateful to the great number of Brainerd folks for their effort. Calvin Peterson, Simon Frederiksen, Phil Houle and Alvin Wohl were some of the winners in the contests that were had that night. We hope all enjoyed the affair.
Bruce Persson and Edwin Magnusson returned from work in North Dakota last Saturday, safe and sound.

KOOLMOTOR

GASOLINE

IS **FREE FROM HARMFUL GUM**

EXCESSIVE gum in gasoline causes delayed seating and, in some cases, complete sticking of the valves in your engine. Faulty valve action allows unburned gasoline to blow out through the exhaust. Recent tests have shown as much as 20% to 30% gasoline wasted because of improper valve operation.

Koolmotor — the original high test, anti-knock green gas — is free from harmful gum. It keeps your valves clean and free-moving — ready to do their best at all times.

A special process — the Cities Service mini-gum process — has reduced the gum content in Koolmotor Gasoline to a harmless minimum.

Keep your tank full of Koolmotor and protect yourself against this loss of mileage and the expense caused by sticky valves. Fill your tank with this powerful, clean burning motor fuel today!

The Height of Sportsmanship

AFTER the Enterprise-Shamrock races are over and the cup still reposes in America, we would suggest a test that would carry the highest elements of sportsmanship and that would arouse unprecedented interest.

We suggest that the Enterprise and Shamrock boats change captains and crews, that Vanderbilt and his crew take over the Shamrock and the British captain and crew board and operate the Enterprise. Then let them race one heat.

MINNEAPOLIS

ENTERPRISE WINS 4th STRAIGHT HEAT AND RETAINS CUP

ST. LOUIS CARDS HOLD PENNANT ADVANTAGE TODAY

HISTORIC EMBLEM SYMBOLIC OF YACHT SUPREMACY

SHAMROCK MORE THAN MILE
AND A QUARTER ASTERN
AT FINISH

ENTERPRISE COMPLETES THE
COURSE IN 3 HOURS, 10 MIN-
UTES, 5 SECONDS

By MORRIS DE HAVEN TRACY
(United Press Staff Correspondent)

Aboard U. S. S. Kane, International
Race Course, Sept. 18.—Enterprise re-
tained for the New York Yacht Club
today the historic America's Cup, sym-
bolic of yachting supremacy.

The great white metal sloop slipped
across the finish line today for a
fourth successive victory over Sir
Thomas Lipton's green challenger,
Shamrock V. The challenger was
more than a mile and a quarter astern
at the finish line at 1:50:05, completing the course in three
hours, 10 minutes and 5 seconds.

Thus the silver cup—worth but \$43
—which has caused Sir Thomas Lipton
and American sportsmen to expend
millions of dollars in the periodic races
since 1851, remains in the United
States where it was brought after the
sloop America won it that year off the
Isle of Wight.

Harold S. Vanderbilt, amateur skip-
per and sportsman, not only brought
his craft to an outstanding victory but
probably ended Sir Thomas Lipton's
gallant efforts to regain the cup. Lip-
ton has announced he will not chal-
lenge again.

Aboard U. S. S. Kane, by radio, Sept.
18.—Shamrock V. and Enterprise
crossed the starting line at 10:40 A. M.
today in the fourth race of what ap-
peared to be Sir Thomas Lipton's for-
lorn hope of taking back to England
the America's Cup.

Captain Ned Heard, professional
skipper of the challenger, again seized
the windward berth as the yachts
went over the line, although Harold
S. Vanderbilt, who drove Enterprise
far down the line, appeared to be foot-
ing faster. The challenger was forced
to leave way before the start because
of the risk of crossing before the start-
ing whistle.

Both boats were on the starboard
tack as they went over, but after one
minute of sailing, Shamrock came
about on the port tack indicating her

skipper was failing to find himself in
an advantageous position.

Shamrock had scarcely finished her
move before Vanderbilt threw Enter-
prise over on the starboard tack.

The breeze had freshened to 14
knots and in the drive, through in-
creasingly choppy seas, Shamrock had
overcome the disadvantage of Vander-
bilt's first maneuver.

Twenty minutes after the start of
the race, the big green boat had open-
ed up a slight lead—perhaps 200 yards
—over the silver masted defender.

Both boats were tilting rakishly in
the stiff wind.

Ned Heard bore off towards the
Narragansett shore on the first leg, in
evident attempt to pick up sufficient
distance over the American to be in a
position to fight for the weather berth
later.

Enterprise was pointing higher,
and although trailing for the time be-
ing, was in a decidedly advantageous
position unless the Lipton sloop should
pick up unexpectedly.

Shamrock's sluggishness in previous
races had apparently disappeared. She
was beating along much faster, per-
haps because of a somewhat smoother
sea. Her skipper's decision to take a
chance by sailing close to the shore in-
dicated his willingness to use every
possible resource to check his disas-
trous losing streak.

Both boats had gone out under
mainsails, jibs, staysails and baby jibs.
Shamrock, 30 minutes after the start,
doused her baby topsail, probably be-
cause the additional handkerchief was
carrying her too far to leeward.

Enterprise kept up her baby jib, the
rest of her canvas duplicating the
challenger's.

Vanderbilt continued to hold his
boat at least half to weather of the
rival and at this time, his strategy
appeared to be showing results.

Enterprise gained rapidly on the
Lipton yacht during the next 15 min-
utes and although the boats were sepa-
rated by a half mile of water, it was
readily seen that the defender had
made up her lost distance and was
stepping out ahead.

At 11:25, 45 minutes after the start
of the race, Enterprise had opened up
a mile of clear water between herself
and Shamrock.

Shamrock's crew made desperate ef-
forts to get the big green yacht to
point into the breeze. They shifted
jib topsails, but at 11:30 the challenger
looked hopelessly outclassed and beat-
ing.

Barring an accident to Enterprise

which seemed improbable since the de-
fender has weather blows up to 35
knots an hour, it appeared to be only
a question of how far the Irish boat
would be trailing at the finish.

Polo Grounds, New York, Sept. 18.—

defeated the Chicago Cubs, 6 to 2,
thereby ending another attempt of the
Cubs to regain the National league
leadership.

HOLD 1 GAME AND 1 POINT LEAD OVER BROOKLYN

HAVE GAME AND A HALF LEAD OVER THE CHICAGO CUBS

ANY ONE OF THE 3 CONTENDERS CAN STILL WIN THE PENNANT

(By United Press)
The advantage in the National
League pennant race rested today
with the St. Louis Cardinals, holding
a one-game and one-point lead over
the Brooklyn Robins and a game and
a half lead over the Chicago Cubs.

Any one of three contenders can
still win the pennant, but the Car-
dinals are playing near unbeatable
baseball and have every advantage as
the season's end draws near.

The Cardinals have lost only 60

games, two less than either the Rob-
bins or Cubs, and have two more games
than the Robins and one more than
the Cubs left to play. Five of the
Cardinals' remaining ten games are
with the last-place Phillies and four
are at St. Louis against the Pittsburgh
Pirates.

The other game for the Cardinals
was the final game of the 3-game series
again Brooklyn at Ebbets Field today.
The series opened with the Robins in
first place, and threatens to close with
the Cardinals, not only in first place,
but with the pennant in their grasp.
The Cards won the first game, 1-0, and
the second game yesterday, 5-3.

Hack Wilson hit his 51st and 52nd
home runs of the season as the Cubs
defeated the New York Giants, 5 to 2.
The Cincinnati Reds split a double-
header with the Boston Braves, win-
ning the second, 6 to 4, after dropping
the opener, 6 to 3.

Pittsburgh hit hard to defeat the
Phillies, 12 to 5.

The standing in the National League
race, games behind and games left to
play follow:

	W.	L.	Pct.	Gb.	Tp.
St. Louis	84	60	.583	10	
Brooklyn	84	62	.575	1	8
Chicago	83	62	.572	1 1/2	9

New York 79 66 .545 5 1/2 9

Seven and a half games out in front
and with but eight more games to
play, the Philadelphia Athletics today
had all but clinched their second suc-
cessive American League championship.
The second place Washington
Senators shaved half a game off the
A's lead Wednesday by dividing a
double-header with the Indians while
the White Sox were defeating the
Athletics. The Senators, however,
have only a slim mathematical chance
of winning the flag.

Red Faber was the cause of the A's
4 to 2 defeat. He allowed the cham-
pions but six scattered hits.

Earl Averill's three home runs play-
ed a large part in Cleveland's 13 to 7
defeat of the Senators in the first
game. The Indian centerfielder got
his fourth homer of the day in the
second affair which the Senators won,
6 to 3.

Earl Whitehill scored his 16th vic-
tory of the season as the Detroit Tig-
ers whipped the Boston Red Sox, 9-7.
The St. Louis Browns piled up an
early lead to nose out the New York
Yankees, 9 to 7. The Yanks did most
of the damage in the eighth inning

when they pounded Rip Collins for six
hits and seven runs.

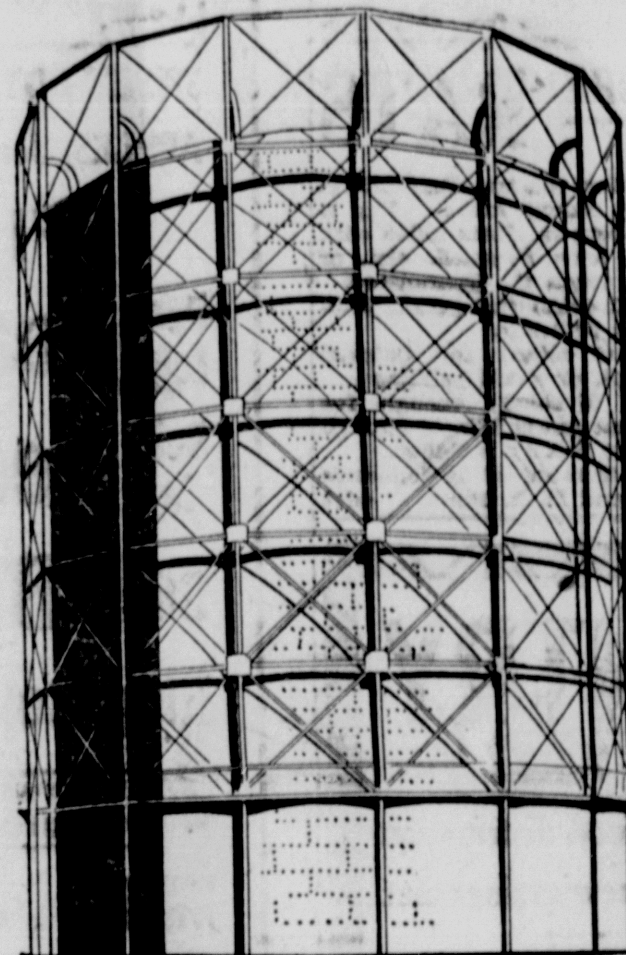

American Association Tabs
Louisville, Sept. 18.—After playing
for 12 innings the game between
Louisville and Columbus was called
on account of darkness here yesterday
with the score tied, 5 to 5. The Col-
onel's lead over St. Paul was thereby
cut one-half game.

Milwaukee, Sept. 18.—Ineffective
pitching by Robertson allowed St.
Paul to gain a 14 to 3 victory over
Milwaukee. The Saints are within
two games of the league-leading Col-
ons.

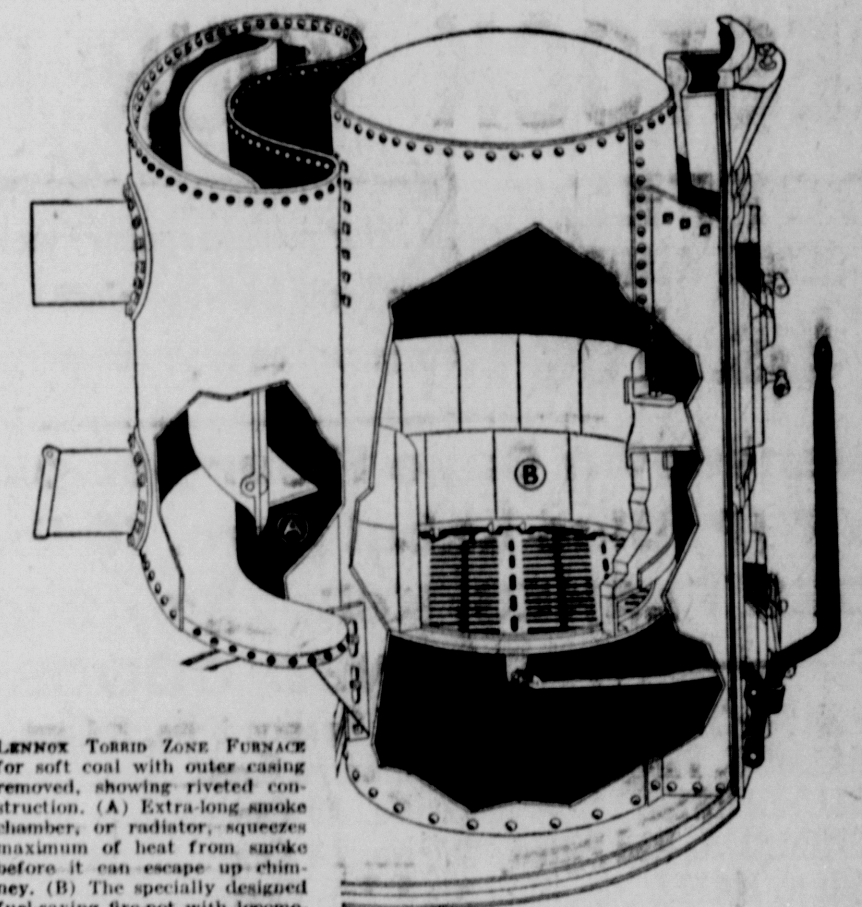

Kansas City, Sept. 18.—After a bar-
rage of safe hitting which lasted
through nine entire innings, Minne-
apolis succeeded in eking out an 11
to 10 victory over Kansas City yester-
day.

Indianapolis, Sept. 18.—Bunching
hits at the right moments, Toledo
took a 12 to 3 victory over Indianapo-
lis under floodlights last night in the
last game of the series.

RIVETS MAKE THE GAS-TANK GAS-TIGHT

LENNOX Torrid Zone FURNACE
for soft coal with outer casing
removed, showing riveted con-
struction. (A) Extra-long smoke
chamber, or radiator, squeezes
maximum of heat from smoke
before it can escape up chim-
ney. (B) The specially designed
fuel-saving fire-pot with loco-
motive grates and other features.
You can see why this furnace
is guaranteed for 16 years and
why its average life, based on
the service records of thousands
of Torrid Zones, is 21 years.

The TORRID ZONE STEEL FURNACE

is gas-tight and
dust-tight
because it is riveted

WINTER can be a steady succession of wholesome
"June days" in any home that's heated by a Torrid
Zone Warm Air Furnace of boiler-plate steel. In
coldest weather, when windows are tightly closed
... even after this furnace is refueled or stirred up ... the air
will be fresh and clean.

For just as the steel gas-tank is made gas-tight by being hot-
riveted and cold-calked ... so the Torrid Zone Furnace is made
gas, smoke and dust-tight.

Furthermore, the furnace that allows more than a minimum of
coal-gas to escape up the chimney or into the house is downright
wasteful. There's heat energy in coal-gas ... heat energy that
the Torrid Zone fire-pot through better combustion turns into
clean, healthful heat. That's one reason why a Torrid Zone
saves the coal pile as well as the curtains, walls and ceilings. It
is designed to heat with from 10% to 20% less fuel than ordi-
nary furnaces. Pick your favorite fuel ... soft coal, coke, hard
coal, lignite, wood, gas or oil ... and get more clean, healthful,
economical warmth from it than you ever have before.

Humidity and air circulation figure big in healthful heating.
You get them in just the right degree with a Lennox Torrid Zone.
You get them because the humidifier has twice the evaporating
area inside the casing of ordinary water pans—positioned for
rapid evaporation right above the firing doors. And because air
circulation is guaranteed when an authorized Lennox Furnace
man installs your furnace according to the Standard Code.

Come in and see the furnace, that, because it is the finest
that heating science has developed, can add these positive fea-
tures to home comfort. Let us show you its sturdy locomotive
grates, its "lazy" shaker. We have a booklet that describes and
illustrates the Torrid Zone in detail that we'll give you. Plans
and estimates furnished upon request. Factory blueprints for
special problems. Made by the LENNOX FURNACE COMPANY,

ENTERPRISE WINS 4th STRAIGHT HEAT AND RETAINS CUP

ST. LOUIS CARDS HOLD PENNANT ADVANTAGE TODAY

HISTORIC EMBLEM SYMBOLIC OF YACHT SUPREMACY

SHAMROCK MORE THAN MILE AND A QUARTER ASTERN AT FINISH

ENTERPRISE COMPLETES THE COURSE IN 3 HOURS, 10 MIN- UTES, 5 SECONDS

By MORRIS DE HAVEN TRACY
(United Press Staff Correspondent)

Aboard U. S. S. Kane, International Race Course, Sept. 18.—Enterprise retained for the New York Yacht Club today the historic America's Cup, symbolic of yachting supremacy.

The great white metal sloop slipped across the finish line today for a fourth successive victory over Sir Thomas Lipton's green challenger, Shamrock V. The challenger was more than a mile and a quarter astern.

Enterprise crossed the finish line at 1:50:05, completing the course in three hours, 10 minutes and 5 seconds.

Thus the silver cup—worth but \$43—which has caused Sir Thomas Lipton and American sportsmen to expend millions of dollars in the periodic races since 1851, remains in the United States where it was brought after the sloop America won it that year off the Isle of Wight.

Harold S. Vanderbilt, amateur skipper and sportsman, not only brought his craft to an outstanding victory but probably ended Sir Thomas Lipton's gallant efforts to regain the cup. Lipton has announced he will not challenge again.

Aboard U. S. S. Kane, by radio, Sept. 18.—Shamrock V and Enterprise crossed the starting line at 10:40 A. M. today in the fourth race of what appeared to be Sir Thomas Lipton's forlorn hope of taking back to England the America's Cup.

Captain Ned Heard, professional skipper of the challenger, again seized the windward berth as the yachts went over the line, although Harold S. Vanderbilt, who drove Enterprise far down the line, appeared to be footing faster. The challenger was forced to leave way before the start because of the risk of crossing before the starting whistle.

Both boats were on the starboard tack as they went over, but after one minute of sailing, Shamrock came about on the port tack indicating her

skipper was failing to find himself in an advantageous position.

Shamrock had scarcely finished her move before Vanderbilt threw Enterprise over on the starboard tack.

The breeze had freshened to 14 knots, and in the drive through increasingly choppy seas, Shamrock had overcome the disadvantage of Vanderbilt's first maneuver.

Twenty minutes after the start of the race, the big green boat had opened up a slight lead—perhaps 200 yards—over the silver masted defender.

Both boats were tilting rakishly in the stiffer wind.

Ned Heard bore off towards the Narragansett shore on the first leg in evident attempt to pick up sufficient distance over the American to be in a position to fight for the weather berth later.

Enterprise was pointing higher, and although trailing for the time being, was in a decidedly advantageous position unless the Lipton sloop should pick up unexpectedly.

Shamrock's sluggishness in previous races had apparently disappeared. She was beating along much faster, perhaps because of a somewhat smoother sea. Her skipper's decision to take a chance by sailing close to the shore indicated his willingness to use every possible resource to check his disastrous losing streak.

Both boats had gone out under mainsails, jibs, staysails and baby jibs. Shamrock, 30 minutes after the start, doused her baby topsail, probably because the additional handkerchief was carrying her too far to leeward.

Enterprise kept up her baby jib, the rest of her canvas duplicating the challenger's.

Vanderbilt continued to hold his boat at least half to weather of the rival and at this time, his strategy appeared to be showing results.

Enterprise gained rapidly on the Lipton yacht during the next 15 minutes and although the boats were separated by a half mile of water, it was readily seen that the defender had made up her lost distance and was stepping out ahead.

At 11:25, 45 minutes after the start of the race, Enterprise had opened up a mile of clear water between herself and Shamrock.

Shamrock's crew made desperate efforts to get the big green yacht to point into the breeze. They shifted jib topsails, but at 11:30 the challenger looked hopelessly outclassed and beaten.

Barring an accident to Enterprise

which seemed improbable since the defender has weather blows up to 35 knots an hour, it appeared to be only a question of how far the Irish boat would be trailing at the finish.

GIANTS DEFEAT THE CUBS 6 TO 2 TODAY

Polo Grounds, New York, Sept. 18.—(U.P.)—The Giants with a powerful attack including Ott's home run today defeated the Chicago Cubs, 6 to 2, thereby ending another attempt of the Cubs to regain the National league leadership.

HOLD 1 GAME AND 1 POINT LEAD OVER BROOKLYN

HAVE GAME AND A HALF LEAD OVER THE CHICAGO CUBS

ANY ONE OF THE 3 CONTENDERS CAN STILL WIN THE PENNANT

(By United Press)

The advantage in the National League pennant race rested today with the St. Louis Cardinals, holding a one-game and one-point lead over the Brooklyn Robins and a game and a half lead over the Chicago Cubs.

Anyone of three contenders can still win the pennant, but the Cardinals are playing near unbeatable baseball and have every advantage as the season's end draws near.

The Cardinals have lost only 60

games, two less than either the Robins or Cubs, and have two more games than the Robins and one more than the Cubs left to play. Five of the Cardinals' remaining ten games are with the last-place Phillies and four are at St. Louis against the Pittsburgh Pirates.

The other game for the Cardinals was the final game of the 3-game series again Brooklyn at Ebbets Field today. The series opened with the Robins in first place, and threatens to close with the Cardinals, not only in first place, but with the pennant in their grasp. The Cards won the first game, 1-0, and the second game yesterday, 5-3.

Hack Wilson hit his 51st and 52nd home runs of the season as the Cubs defeated the New York Giants, 5 to 2. The Cincinnati Reds split a double-header with the Boston Braves, winning the second, 6 to 4, after dropping the opener, 6 to 3.

Pittsburgh hit hard to defeat the Phillies, 12 to 5.

The standing in the National League race, games behind and games left to play follow:

	W.	L.	Pct.	Gb.	Tp.
St. Louis	84	60	.583	—	10
Brooklyn	84	62	.575	1	8
Chicago	83	62	.572	1½	9

New York 79 66 .545 5½ 9

Seven and a half games out in front and with but eight more games to play, the Philadelphia Athletics today had all but clinched their second successive American League championship. The second place Washington Senators shaved half a game off the A's lead Wednesday by dividing a double-header with the Indians while the White Sox were defeating the Athletics. The Senators, however, have only a slim mathematical chance of winning the flag.

Red Faber was the cause of the A's 4 to 2 defeat. He allowed the champions but six scattered hits.

Earl Averill's three home runs played a large part in Cleveland's 13 to 7 defeat of the Senators in the first game. The Indian centerfielder got his fourth homer of the day in the second affair which the Senators won, 6 to 5.

Earl Whitehill scored his 16th victory of the season as the Detroit Tigers whipped the Boston Red Sox, 9-7.

The St. Louis Browns piled up an early lead to nose out the New York Yankees, 9 to 7. The Yanks did most of the damage in the eighth inning.

when they pounded Rip Collins for six hits and seven runs.

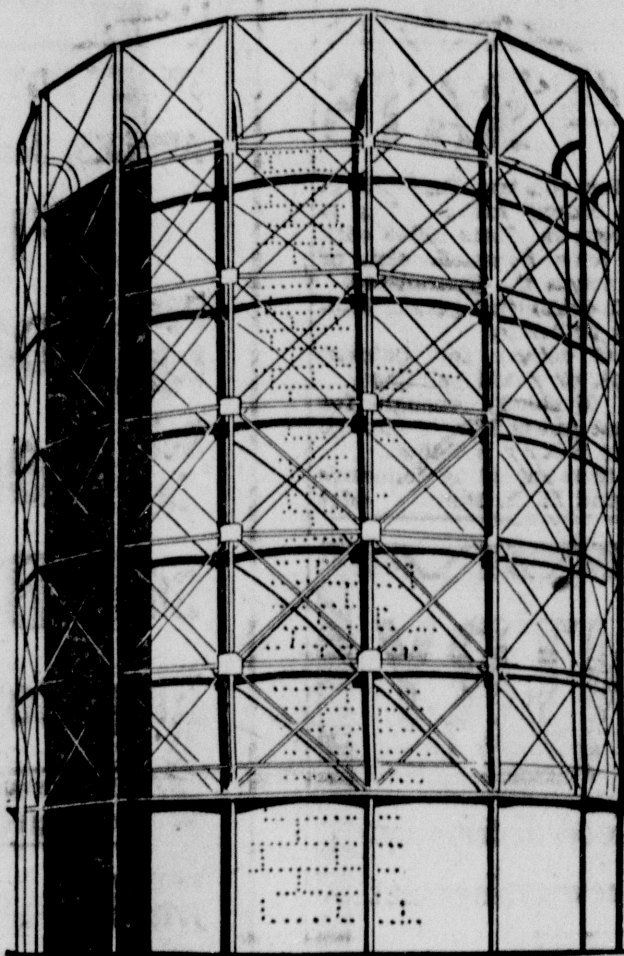

American Association Tabs
Louisville, Sept. 18.—After playing for 12 innings the game between Louisville and Columbus was called on account of darkness here yesterday with the score tied, 5 to 5. The Colonel's lead over St. Paul was thereby cut one-half game.

Milwaukee, Sept. 18.—Ineffective pitching by Robertson allowed St. Paul to gain a 14 to 3 victory over Milwaukee. The Saints are within two games of the league-leading Colonels.

Kansas City, Sept. 18.—After a barrage of safe hitting which lasted through nine entire innings, Minneapolis succeeded in eking out an 11 to 10 victory over Kansas City yesterday.

Indianapolis, Sept. 18.—Bunching hits at the right moments, Toledo took a 12 to 3 victory over Indianapolis under floodlights last night in the last game of the series.

The TORRID ZONE STEEL FURNACE

is gas-tight and
dust-tight
because it is riveted

WINTER can be a steady succession of wholesome "June days" in any home that's heated by a Torrid Zone Warm Air Furnace of boiler-plate steel. In coldest weather, when windows are tightly closed . . . even after this furnace is refueled or stirred up . . . the air will be fresh and clean.

For just as the steel gas-tank is made gas-tight by being hot-riveted and cold-calked . . . so the Torrid Zone Furnace is made gas, smoke and dust-tight.

Furthermore, the furnace that allows more than a minimum of coal-gas to escape up the chimney or into the house is downright wasteful. There's heat energy in coal-gas . . . heat energy that the Torrid Zone fire-pot through better combustion turns into clean, healthful heat. That's one reason why a Torrid Zone saves the coal pile as well as the curtains, walls and ceilings. It is designed to heat with from 10% to 20% less fuel than ordinary furnaces. Pick your favorite fuel . . . soft coal, coke, hard coal, lignite, wood, gas or oil . . . and get more clean, healthful, economical warmth from it than you ever have before.

LENNOX TORRID ZONE FURNACE for soft coal with outer casing removed, showing riveted construction. (A) Extra-long smoke chamber, or radiator, squeezes maximum of heat from smoke before it can escape up chimney. (B) The specially designed fuel-saving fire-pot, with locomotive grates and other features. You can see why this furnace is guaranteed for 10 years and why its average life, based on the service records of thousands of Torrid Zones, is 21 years.

Humidity and air circulation figure big in healthful heating. You get them in just the right degree with a Lennox Torrid Zone. You get them because the humidifier has twice the evaporating area inside the casing of ordinary water pans—positioned for rapid evaporation right above the firing doors. Saving Water Heritage

To Editor Dispatch:
Old Mother Hubbard went to the cupboard to get her dog a bone. When she got there the cupboard was bare. This will be the case in Northern Minnesota in regard to our water supply, unless we put forth every effort to save and protect all we have and all we can get. Why should we, the people, home makers and taxpayers, have to sacrifice to the great extent necessary, if they draw more water than the natural resources will supply.

Our dams have been thrown open. The water has been turned in to the river at this time, and it is only a false delusion to the men who are talking soundings in the states south of us in regard to a waterway project.

Of course, there are promoters of all descriptions and in most cases there is an ax to grind. Why should we worry about river transportation? We have good railroad systems all over the country and we have truck hauling and airplanes. The motor transportation has cut in on the railways. Are we willing for them to lay down and tell us to depend on other agencies such as motor, airplane and river?

I believe we should check up on the county ditching. I believe in most

cases they have done more harm than good. It is true they have drained a number of nature's water deposits that do not seep down to our rivers in dry times. Our swamp timbers are dead. A large per cent of this drained land is lush with weeds and brush. We will take the ditch draining and the clearing of the land and we find it has sapped out nature's water supply to such an extent that we have none to waste and we should begin to conserve on water.

Do not wait as we did with our timber by letting it be drawn away. I hope every man, woman and child will consider this matter enough to fight for our water rights.

DAN CHORD.

The easiest way to keep track of last minute food prices, in these days of rapid changes, is by dropping in at an A&P store. There you can always get the latest news on the subject.

The reason is simple. A&P buys the best at the sources of supply, and its margin of profit is always about the same—as little as possible. Its customers get all the saving when prices go down.

Saving Water Heritage
To Editor Dispatch:
Old Mother Hubbard went to the cupboard to get her dog a bone. When she got there the cupboard was bare. This will be the case in Northern Minnesota in regard to our water supply, unless we put forth every effort to save and protect all we have and all we can get. Why should we, the people, home makers and taxpayers, have to sacrifice to the great extent necessary, if they draw more water than the natural resources will supply.

Our dams have been thrown open. The water has been turned in to the river at this time, and it is only a false delusion to the men who are taking soundings in the states south of us in regard to a waterway project.

Of course, there are promoters of all descriptions and in most cases there is an ax to grind. Why should we worry about river transportation? We have good railroad systems all over the country and we have truck hauling and airplanes. The motor transportation has cut in on the railways. Are we willing for them to lay down and tell us to depend on other agencies such as motor, airplane and river?

I believe we should check up on the county ditching. I believe in most

cases they have done more harm than good. It is true they have drained a number of nature's water deposits that do not seep down to our rivers in dry times. Our swamp timbers are dead. A large per cent of this drained land is lush with weeds and brush. We will take the ditch draining and the clearing of the land and we find it has sapped out nature's water supply to such an extent that we have none to waste and we should begin to conserve on water.

Do not wait as we did with our timber by letting it be drawn away. I hope every man, woman and child will consider this matter enough to fight for our water rights.

DAN CHORD.

The easiest way to keep track of last minute food prices, in these days of rapid changes, is by dropping in at an A&P store. There you can always get the latest news on the subject.

The reason is simple. A&P buys the best at the sources of supply, and its margin of profit is always about the same—as little as possible. Its customers get all the saving when prices go down.

DEMANDS HEARING, BONDED FOR \$5,000

Hearing in Case of A. B. Peterson, Bridge Foreman Set for Tuesday

TWO COMPLAINTS SPECIFIED Charged With Presenting Fraudulent Claims to County

Bonds of \$5,000 were placed on A. B. Peterson, county bridge foreman, on his arraignment in municipal court this afternoon on the charge of presenting fraudulent claims to the county.

Peterson asked for a preliminary hearing, Judge J. H. Warner setting the date of Tuesday, Sept. 23 at 10 a. m. in municipal court for that purpose.

Attorney Donald I. Ryan, representing Peterson, waived the reading of two specific complaints against Peterson.

The complaints charged Peterson received from the county warrants in the amount of \$35.75 and \$58.50 for services not rendered by men alleged to be on the payroll at the Gull river bridge construction on the Pine Beach road.

County Attorney Arthur J. Sullivan who signed the complaints after investigating alleged padding of payrolls by Peterson told the court he had additional evidence against Peterson.

J. Langlais, state public examiner and Mr. Sullivan have been checking over all jobs where Peterson has been employed by the county under day labor and have been investigating and interviewing the men who drew wages through Peterson during the current year.

Mr. Sullivan stated that it would require some time to get to the bottom of the entire investigation since a mass of detail in connection with the work confronts him.

'ALL QUIET' STORY OF YOUTH IN WAR

A Pageant of terrible splendor... a drama of deep human emotions... a terrific indictment of modern war... that is "All Quiet On The Western Front," Universal's superb super-production of Erich Maria Remarque's famous war book, which comes to the screen of the Paramount theatre Monday for three days.

"All Quiet On The Western Front" is a magnificent picturization of the fate of youth in war. Its hero, young Paul Bäumer, is a German, but he stands for the youth of all nations subjected to the most terribly of all human experiences.

Lewis Ayres, in the central role, Louis Wolheim and John Wray give performances that have never been surpassed on the motion-picture screen. Others in the large cast who stand prominently forth are Slim Summerville, Russell Gleason, William Bakewell, Scott Kolk, Walter Browne Rogers, Ben Alexander, Owen Davis, Jr. and Zazu Pitts.

BIDS WANTED

Sealed proposals will be received at Fort Ripley State Bank by the school board of Dist. No. 9, Crow Wing County, Minn., until 2 P. M., Sept. 27th, 1936, for the erection and completion of a school building at Fort Ripley. Plans and specifications may be seen at the Bank.

Board reserves right to reject any or all bids.

W. F. Clark Arrested After Police Raid His Home for Liquor

Police Chief Cuts Hand on Bottle in Attempting to Save Evidence

W. F. Clark, 63 years old, denied allegations by city authorities today that his home at 506 First avenue N. E. was a liquor speakeasy by pleading not guilty to the charge of keeping and maintaining a nuisance when arraigned in municipal court this morning.

His trial was set for Friday afternoon at 2 o'clock, and he was released on his own recognizance.

The complaint against Clark was filed by Chief of Police Thomas Templeton after he and Officers Charles Varner and Erick Graff raided the house and according to Chief Templeton found 60 pints of beer, 3 pints of moonshine whiskey, 5 gallons of wine, 15 gallons of beer mash and 15 gallons of wine in the making.

Chief Templeton received a cut on the hand by attempting to prevent Clark from breaking the bottles of moonshine, he said.

"Clark swept two of the bottles from the table, breaking them. I grabbed the third one and in so doing cut my hand," the chief said.

After the arraignment was presented by City Attorney D. H. Fullerton, Clark asserted he maintained one of the quietest homes in the city and pleaded not guilty.

"I worked in the woods last winter until I was hurt. Then I sold my truck and I have been living off the proceeds since. I came here from Bergus Falls. The hard times hit me like hundreds of others," Clark said.

"Do you want to place me on bonds or will you trust my honesty. I will be here for the trial," Clark said explaining that this time was the first he had ever been arrested.

Clark has G. S. Swanson for his attorney.

70 STUMPS PULLED FROM H. S. GROUNDS

Grounds Around High School Being Beautified, to be Seeded This Fall

Seventy stumps were taken out of the grounds around the Brainerd high school by workmen in doing excavation work there before landscaping which will receive a good start this fall.

The work in charge of L. C. Kusche is under the jurisdiction of the building and grounds committee of the Brainerd Board of Education. Eight men will be employed for a month yet before the work of grading and surfacing with clay loam for seeding is completed. The grounds will be seeded this fall. The work also includes improvement of the boulevard along Oak street.

Excess dirt has been hauled to the grounds of the Lincoln and Harrison schools. The stumps were taken to the city dumping grounds.

KING TUT AND MY SULLIVAN FINISH TRAINING

10 ROUND CONTEST IS SET FOR ST. PAUL ON FRIDAY NIGHT

MY SULLIVAN MUST MAKE 148 POUNDS BY 3 O'CLOCK ON FRIDAY

St. Paul, Sept. 18.—(U.P.)—King Tut, Minneapolis, and My Sullivan, St. Paul, who are to meet in a 10 round coming contest here Friday night, have completed training and will do but light work today.

Sullivan, who must make 148 pounds by 3 o'clock Friday, was down to 149 pounds today and expected to have little trouble in making the required weight.

Tut is expected to come in at 142 pounds in this second meeting with Sullivan. In the first fight Tut gained a newspaper decision after he had cut Sullivan's eye lid in the second round, and the steady flow of blood bothered the St. Paul boxer.

Jimmy Evans, Los Angeles and Clyde Hull, Faith, S. D., are in an eight round semi-windup. Frankie Battaglia, Winnipeg, and Jenny (Kid) Stanley, Chicago, will meet in a six round preliminary.

CARNERA BOASTS KNOCKOUT WIN

DEFEATS "SET UP" OPPONENT. JACK GROSS, OF PHILADELPHIA

Chicago, Sept. 18.—(U.P.)—Primo Carnera boasted another knockout victory over a "set up" opponent, but Jack Gross, Philadelphia second rater, had the advantage over the giant Italian in that he took the lion's share of the purse and whatever glory there was in the twenty third and final bout of Primo's American tour last night.

Gross lasted less than half of the scheduled 10-rounds, being counted out after one minute and 11 seconds of the fourth round. He was down once previously, in the fourth round, for a count of nine but during the 10 minutes of fighting earned a purse of \$7,500.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or over increasing the dose. Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Economy Drug Co., Johnson's Pharmacy. advt.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the colon, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Economy Drug Co., Johnson's Pharmacy. advt.
